## Recommendation

APPROVE WITH MODIFICATIONS

## Comments

The Executive recommends full funding of this project on the schedule shown above for fiscal reasons.

The FY08 appropriations recommendation is \$5,473,000.

## **DESCRIPTION**

This project will fund the design and construction of a new biotechnology and science building (approx. 126,900 gsf) on the Germantown Campus to support Campus space needs and provide for up-to-date biotechnology and science laboratories in a modern facility that complies with current requirements. This new building is part of an overall plan to provide a Campus instructional focus on the biotechnology industry. The College is working with the County to develop an adjacent biotech business park on the Germantown Campus as part of the up-County biotechnology corridor. This new building and the biotechnology program is part of an overall strategy to supply a biotechnology workforce for Montgomery County and the State of Maryland. In addition to housing the biology, chemistry and biotechnology programs, this new building will have a meeting center providing the College and outside groups with opportunities to gather in support of scientific education.

### JUSTIFICATION

Under the application of the State space guidelines, the enrollment growth on the Germantown Campus has resulted in a significant instructional space deficit. The Germantown Campus has a 2014 projected instructional space deficit of 65,051 NASF and a total space deficit anticipated to be 162,631 NASF. In addition, the Campus' chemistry and biology classrooms and labs are currently located in outdated facilities. The new building will provide a modern facility for up-to-date biotechnology instruction along with providing much needed additional space.

#### Plans and Studies

The Collegewide Facilities Master Plan (1/04) and the Germantown Bioscience Education Center Facility Program (5/04).

### **Cost Change**

The cost of this project has increased due to FY08 Bond Bill cost escalations. The state has recognized the increasing costs of the current construction market and is using the following escalation factors: 8% in 2006, 8% in 2007, 5% in 2008, and 5% thereafter. These cost escalations have been incorporated into the project.

### **STATUS**

Design Phase. The FY08 request reflects Phase II of a two-phase design funding sequence to better match the state's desired funding cycle.

### OTHER

FY08 Appropriation: \$5,473,000 (\$2,736,500 -- G.O. Bonds and \$2,736,500 -- State Aid).

State share of project based on anticipated eligible costs. Relocation costs and design fees above approximately 7% of estimated construction costs may not be eligible for State reimbursement.

## COORDINATION

Facility Planning: College (CIP#886686) Energy Conservation: College (CIP#816611)

Montgomery College asserts that this project conforms to the requirements of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

MAP
